1. Herewith is an up-date on the status of the OSA history. A draft of the history is completed. The text, including chronology, annexes and appendices, will total approximately 2,000 pages. Proofing, editing and final typing remains to be done on approximately 60% of the material in hand.

2. Since [REDACTED] is unable to devote full time to the history it would be difficult to forecast a completion date. In lieu, of setting a hard and fast date for completion, we have set as a goal the date of 1 April 1969.
